

CONTRACT WORK AND THE FREE LEASE PROGRAM

The Free Lease program is the preferred option for Woorinyan, but we also have the capability to cater for both long and short term contract work.

All of the workers at Woorinyan are paid under an enterprise agreement. This means Woorinyan is committed to pay social just wages to workers with a disAbility. For employers not wishing to use the Free Lease program contract labour is available at a rate of \$11.80 per hour. If an employer does not wish to pay an hourly wage, the alternative that can be provided is by determining a unit cost based on this rate.

By setting up a unit cost, the employer will only pay for the work completed.

A Woorinyan contract offers companies the opportunity to reduce overheads, increase output and stock throughput at an affordable rate, without the cost of Workcover, Superannuation or Payroll Tax as well as being able to downsize quickly when there is a down turn in demand.

QUALITY STANDARDS Woorinyan's quality is assured by developing specific programs that are tailor-made to suit the needs and requirements of the host company. In order to maintain quality we like to set up individual programs which suit the task. This is done to the specific requirements of the company. This is the most important part of the contract negotiation process.

Some of the organisations with whom Woorinyan is working with and has forged effective long-term working relationships include Nylex, Columbia, Kimberly, Inghams, BlueScope Steel and the Keith Turnbull Research Institute.

References are included in this package.
